

PROPERTY OWNER BALLOT TO DETERMINE CHEKSHANI CLIFFS WATER QUALITY IMPROVEMENT

I am a property owner in the Chekshani Cliffs Subdivision. I have read the letter sent by the Central Iron County Water Conservancy District (CICWCD) or attended the Water Quality Meeting held on January 3, 2019 by CICWCD, which proposed different water source/treatment options for the Chekshani Cliffs Subdivision.

Check this box if you **would** be willing to pay \$3,500 to \$7,000 for a new water source/treatment option.

If **yes**,

Check this box if you likely pay the full amount upfront.

Check this box if you would likely finance the full amount through CICWCD. Financing \$7,000 through CICWCD would increase your water bill approximately \$74 per month until paid, an estimated 10-year plan at 5% APR.

Check this box if you **would not** be willing to pay \$3,500 to \$7,000 for a new water source/treatment option.
